**Notice Concerning Change of Corporate Name of Consolidated Subsidiary**

Software Maintenance Corporation, ISB Corporation's consolidated subsidiary at its Extraordinary Meeting of Shareholders held today made a decision to change its corporate name as follows.

1. Profile of the subsidiary

- (1) Software Maintenance Corporation
- (2) Location: 4-1-2 Osaki, Shinagawa-ku, Tokyo
- (3) Representative: **Hiroomi** Endo
- (4) Major businesses: Development and operation of software, quality evaluation, labor dispatch service

2. New name

SMC Corporation

3. Reason for change

Software Maintenance was established in 1985 for developing and operating software and providing maintenance services, and has been expanding its business focusing on engineer dispatch services through innovation technologies including the development and operation of Open System business and quality evaluation in accordance with the technological advances.

In August 2008, Software Maintenance absorbed ISB consolidated subsidiary ISB Application System Corporation aiming to further expand business through synergy generated by integrating both companies' knowhow.

Software Maintenance's integration and restructuring are settled and the Company will mark the 25<sup>th</sup> anniversary of its establishment in the next fiscal year. On this occasion, Software Maintenance will change its name to "SMC Corporation" which is familiar to customers, aiming for further development.

4. Date of change

January 1, 2009
